Hurricane Michael Affected Location

The Panama City Downtown branch was severely damaged during Hurricane Michael and remains our only branch location that is temporarily closed due to the storm. The main branch will be closed for several months while we renovate and make repairs however the drive-in (with ATM and Teller access) is open and available. To provide banking services to our clients during the branch renovation, we will be deploying one of our new full service Mobile Banking Trailers to the Panama City Downtown location and the Trailer will be ready to open in late November or early December. Clients may also use the nearby SunTrust branch location at 511 W. 23rd Street which offers full banking services to meet client needs.

Thank you for banking with SunTrust.
