Re: 2010 Year End Results - SunTrust Bank's CRA Participation - North Carolina

On behalf of everyone at the Senior Housing Crime Prevention Foundation, I want to wish you a very Happy New Year and thank you for your continued support. I hope 2011 brings success and prosperity to everyone involved with your bank.

I am pleased to report that your bank's sponsored senior facility participating in the Senior Crimestoppers program experienced a crime reduction rate of 71.74% for the period ending December 31, 2010 as evidenced by the first graph in the packet. The second graph reflects an incident reduction rate of 88.89% throughout the Veterans nursing homes your bank sponsors through the Foundation's Veterans Initiative. The national crime reduction rate for all participating facilities was 92.70% for the same time period. You should be proud of the role your bank has played to help produce these results.

In spite of our outstanding results in reducing nursing home crime, we continue to fight a daily battle against those who perpetrate crime against vulnerable residents. The Senior Crimestoppers program is the only initiative, public or private, that is having a measurable impact on the problem of nursing home crime in America, and we are proud to be exclusively funded by the banking industry. That's a good news story to tell at a time when bad news seems to dominate our headlines.

The Year In Review - I am pleased to report that 2010 was an extraordinary year for the Foundation in every regard. In the fourth quarter we experienced a surge of loan and investment activity from large and small banks across the country. We believe this increase in activity signals an improvement in the banking industry and our economy as a whole.

Veterans Initiative - In 2010, we made great strides toward completing our mission of providing the Senior Crimestoppers program for all 140 Veterans nursing homes in the nation at no cost to the facilities or their residents. To date, we have implemented the Senior Crimestoppers program in 52 Veterans Nursing Homes in 36 states with the financial support of banks from New York to California, with CRA qualified loans and investments ranging from \$150,000 to \$10 million. This sounds good, and it is, but we still have 88 facilities to go before we have completed our mission. We have renewed our marketing efforts with the National Association of Veterans Homes, ICBA, ABA and our state bankers association partners, and will be reaching out to the banking industry throughout 2011. Please take a moment to review the enclosed examples of positive public exposure some of our participating banks have received. This exposure comes from banks using the Foundation's marketing materials to gain local news coverage and as a result of the Foundation's relationship with the state bankers associations who promote banks participating the Foundation.

Please Mark Your Calendar - The 8th Annual Doing Well by Doing Good Bankers Conference will be held in New York City, October 6-7, 2010. Guest speakers will include bankers, senior regulatory officials, and other dignitaries who will discuss the current banking environment, CRA and community development issues and trends, outreach to the veteran community, business development in nursing homes, and much more. There will be no registration fee to attend, one complimentary night in the hotel will be provided for each participating bank, and we will provide one \$200 travel reimbursement for each participating bank. **Registration information and hotel registration instructions will be sent to you next month. Please reserve the date on your calendar**

Note: We suggest that you keep a copy of this report in your 2010 CRA file.
